TEALING REGENERATION STEERING GROUP (TRSG)

After a competitive tender, community development charity Outside the Box, has been appointed to undertake the residents survey and village-wide consultation this summer. Having successfully worked with many other communities across Scotland to make changes and improvements, they bring lots of relevant experience and expertise to the task. They'll carry out the online survey as well as a mix of face to face and telephone interviews, focus groups and public meetings over the next few months, giving everyone who wants to the opportunity to participate. Find more out about them at www.otbds.org.

MEET THE RESEARCH TEAM

The research team is (left to right above) Louise, Christine, Julie, Ruth, Jill and Leon.

Over the next few months, we'll be out and about in Tealing meeting with people and groups and joining your community activities (when invited). We'll also hold a public consultation event at the hall. We'd love to hear from you - to speak with us direct, please contact Jill on 07841 015949 or email jill.k@otbds.org

RESIDENTS ONLINE SURVEY IS LIVE NOW'S THE TIME TO HAVE YOUR SAY!

We've developed a survey to start capturing your views and ideas. It's designed for individuals to complete and takes around 10 minutes. It's not just for adults. If older children would like to complete it themselves, we'd be delighted to hear what they think too. Everyone in the family can have their say by responding. It's an online survey and the link is: outsidethebox056299.typeform.com/Tealing Please complete the survey as soon as you can.

OTHER WAYS TO COMPLETE THE SURVEY

We know that not everyone likes online surveys, so paper copies are available by email or telephone request.

We can also ask the questions over the phone and complete the form with you if you'd prefer. Please get in touch if you need help. Christine is looking after the survey and can be contacted at 07936 330765 or christine@otbds.org

WONDERFUL TIME HAD AT THE JUBILEE AFTERNOON TEA!

More than seventy friends and neighbours came along to enjoy an afternoon of great company, tasty bakes, chat, laughter, music and nostalgia. After all the restrictions during lockdown it was wonderful to see everyone together and to hear the buzz of friendly chat in the hall.

Special thanks to David Roulston for the wonderful live music throughout and to community councillor Hilda Young and her marvellous team of volunteer helpers for making it happen.

COMMUNITY COUNCIL ELECTIONS (Every 4 years)

TEALING PRIMARY SCHOOL UPDATE

Fantastic June Sports Day!

It was wonderful to have our families back in the grounds watching and racing on 14 June. The children participated with enthusiasm and really enjoyed the activities. The uniform swap shop had lots of customers and the weather held up well - success all round!

School is now closed for the summer holiday and reopens for pupils on Tuesday 16 Aug.

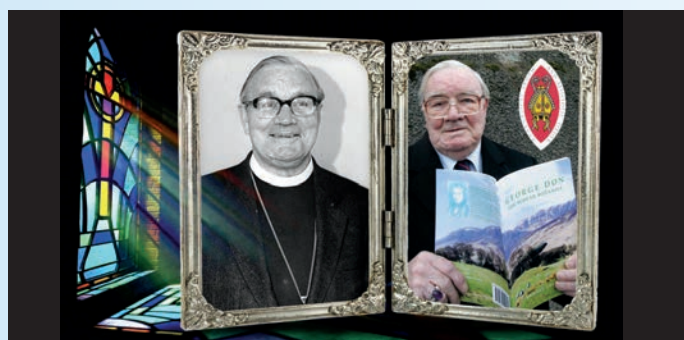

SEAGREEN SUBSTATION AT TEALING UPDATE

This year should see the works at the Seagreen Tealing substation completed. The new buildings are up and the main focus has now moved towards reinstatement and planting in the areas surrounding the site, plus reinstatement and upgrade works along the Moatmill access Road from the A90. The substation will convert the voltage from the offshore windfarm (from 220kv to 275kv) across three circuits and export it to the electricity grid at the existing Tealing Substation.

When complete Seagreen Offshore Wind Farm project will be Scotland's largest and the world's deepest offshore wind farm and will provide enough power for over 1.6m homes (equivalent to two-thirds of all Scottish homes), placing Tealing at the heart of the renewables industry in Scotland. Works are going well offshore and the first power is due in the coming weeks. Full power is programmed for mid-2023.

Following on from the funding for the new Obstacle Course at Tealing Primary School we are pleased to be in the process of donating a number of our wooden cable drums to local schools. We are also excited to share our STEM presentation into the local schools once the new term begins too.
